

CHARACTERISTICS:

- High contrast LCD display for accurate digital angle measurements
- HOLD function for storing measured values and ZERO function for incremental measurements
- Manual blade fixation for precise transfer of angles
- Integrated end stop for accurate and reliable measurements
- Applicable as a ruler with continuous mm/cm scale across both blades
- Robust, rigid blades with reinforcing ribs

Model

WMD 200

WMD 500

Technical details:

Item description	Electronic protractor
Measuring tolerance	0.30°
Graduations	mm/cm, 2-piece, lasered
Blade material	Aluminum
Blade surface	anodized
Blade color	black
Scale grid	1 mm
Angular dimension	270°, variable 0° - 270°
Reading option	0.10°
